	Size	St
ir" yEnc	122.1 MB [...]	
nc	60.0 KB [01]	

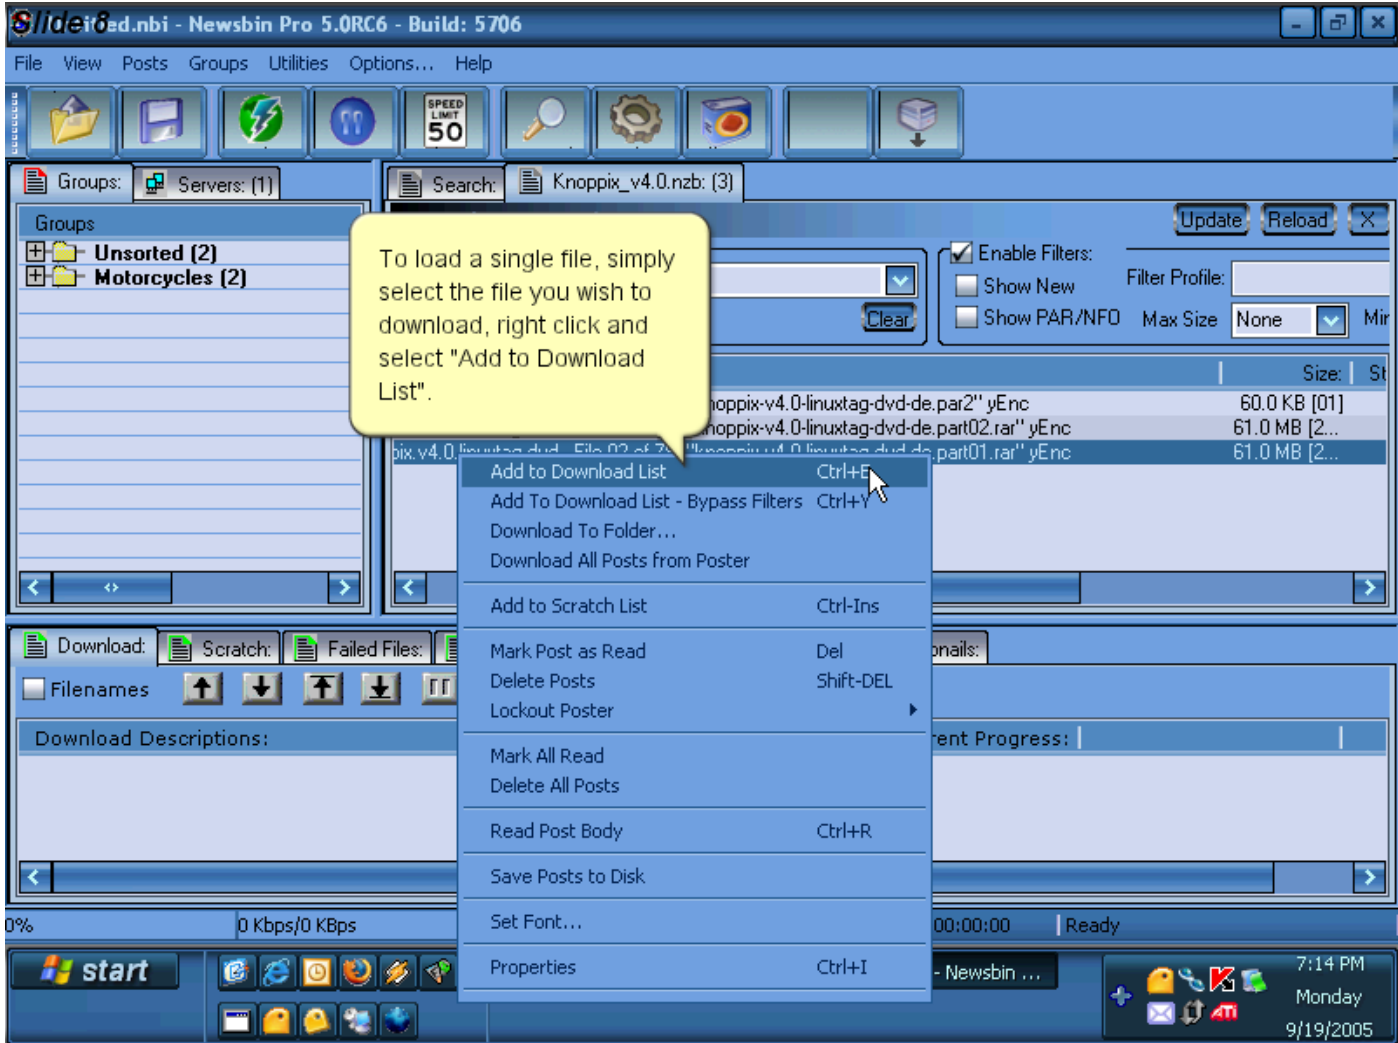

Notice, that by default, "Compact" mode is enabled. What this does is group files of a set (ie. RAR set) and displays them as a single header...however the "Size" of the header contains the total of all the files of the set. In this case, "122 MB" is displayed.

If you have a larger set to download, a quicker way to download the set, would be to use the "Compact" mode.
